Objective

- To perform care using exceptional service and patient care while providing my ability to handle high stress and fast pace environment. Hoping to bring my experience to a growing practice.

Objective Statement

- Registered Nurse with a compassionate nature, personal care expertise and a track record of upholding the highest level of patient satisfaction.
- Skilled at working independently and also collaboratively with the multi-disciplinary team and establishing a successful working relationship with the patients, medical staff as well as the public.
- Verified use of sound judgement with clinical expertise to ensure optimal patient care in emergency and non-emergency situations while maintaining professionalism.
- Compassion and respect for the inherent dignity, worth, and uniqueness of every individual, unrestricted by consideration of social or economic status or cultural beliefs.

Qualification Summary

- I have triaged 6 patients at a time.
- Extensive knowledge of cardiac procedures as well as pre and post op procedures.
- Supervisor/Leadership experience offering 2 years' experience reporting to center manager and managing a team of 20 subordinates and 3 group leads. Trained and mentored new hires who were promoted to group lead and supervisor.
- Educated patients regarding their medications, procedure and treatments. Additionally, provided preoperative, inter-operative and post-operative care instruction. To include: Direct and Indirect patient care, Post-op care, Patient advocacy, Medication Administration, and Electronic charting that align under the Nursing Profession standards (ANA Standards of Practice).
- Demonstrated ability in managing critical situations and making care-based decisions utilizing E.B.P. (Evidence-based Practice) and research. Recorded vital signs for 40-bed unit for telemetry ward, floated to ICU and med-surg 2x every month.
