Work Experience

RN Staff Nurse

FRESENIUS KIDNEY CARE

October 2021 to Present

I assist with patient care during the dialysis process, as well as complete assessments before, during, and after the procedure, help coordinate patient care, and manage other personnel. I set up dialysis machines, prepare patients, and start the administration of treatment. My duties include handling any paperwork involved.

Registered Nurse

INDIAN PATH COMMUNITY HOSPITAL

January 2020 to October 2021

Provide nursing care within the ER setting, collaborate with various ER professionals to ensure quality patient care, perform efficient patient assessment on patient arrival at the ER during initial phase of acute illness or trauma. Monitor ER patients, including alerting physicians or charge nurses to changes in patient status, communicating with patients and their family members. Perform medical procedures, such as EKG, venipuncture, cardiac monitoring, taking vital signs, urinalysis, or administering medications.

APHERESIS TECH, MARSH REGIONAL BLOOD CENTER

January 2014 to December 2020

Performed venipuncture for multiple blood products including whole blood, platelets, and plasma. Additional skills include performing health assessments and obtaining vital signs on donors. I also operated the Apheresis machine to obtain platelets.
