Education

Pius XI High School 2015
Alverno College 2016-2018
MATC LPN May 2022

Objective

I first became a certified nursing assistant in 2016 and have been working as one ever since; on a range of different units, specializing in geriatrics and dementia. I have recently finished my last semester of my LPN program and expected to take the NCLEX in June. I will be moving to Arizona in late July. My number one goal right now is to find a suitable job as a new graduate.

Experience

July 2020- January 2022
Private in-home CNA

January 2019- July 2020
In-home CNA for Home Care Assistance

July 2015-July 2019
Team worker in entertainer department for Milwaukee Bucks

July 2016-August 2017
CNA for Always Best Care

I have a year of experience on rehabilitation units from my LPN clinical sites. There we were able to pass meds almost immediately, we also performed full physical assessments each day, and learned to document using the charting system, EPIC. During our time there we were exposed to so many different skills including, bladder scan, extensive wound care, IV therapy, and more.

Some things that were consistent with all the evaluations from my instructors is my eagerness to learn and how easy it is for me to work with others.

Aside from rehab experience I have spent most of my time in long term care facilities and in home care as an aide. I am more than confident when it comes to geriatric patients with dementia.

I am most known for being an effective communicator, well organized and consistently punctual. I take pride in my work ethic; I put my all into everything that I do.

Awards

Over the last few years, I have been recognized numerous times for my diligent work ethic. I have made honor roll every semester of nursing school. I was recently submitted to become a student tutor by one of my professors. I also received the most improved employee award three times in a row during my time with the Milwaukee Bucks.
