Authorized to work in the US for any employer

Work Experience

Registered Nurse Transplant ICU

Tulane Medical Center - New Orleans, LA

June 2021 to Present

Utilize the nursing process to assess, plan, intervene, and evaluate patient care. Treat life-threatening emergencies. Provide daily medication administration and administration of all medications.

Aerospace Medical Technician

United States Air Force Reserve

May 2014 to Present

Duties include checking vital signs, assisting with sterile procedures, administering medications, starting and changing IVs, and meeting patient needs within my means, collecting blood samples from patients and transporting them to the hospital or clinical laboratory, practicing proper patient identification and labeling vials with patient information and dates. I also functioned as a nationally certified EMT.

LPN/Medical Staff Associate

CSL Plasma

September 2020 to May 2021

Duties: evaluate donor suitability for automated pheresis procedures. Administer and supervision of approved immunizations other than red blood cell immunizations. Provides limited emergency medical care to donors and staff, including the administration of medication or treatments in accordance with licensure or certification. 1

Promotes positive customer relations with all donors, Conducts confidential and effective interviews with donors to obtain necessary information regarding suitability to donate plasma, work in conjunction with the Center Medical Director and/or Center Physician to respond to medically related questions from staff including donor suitability and provides information to staff on medically related issues. ; perform medical history reviews and health assessments on donors. Assess results of donor screening and laboratory tests to determine initial and continuing donor suitability. Notify and counsel donors regarding reactive test results; refer donors to community facilities for follow-up and counseling; explain informed consent to applicant donors including the explanation of procedures, hazards and potential adverse events; explanation of immunization schedules, dose and antibody response; providing clear opportunity for donor to refuse participation; obtaining signature and date certifying informed consent. Handled medical emergencies at the Center by providing routine care as job description; elevates adverse events to Center Physician or local medical service providers as required.

Emergency Medical Technician

Providence Hospital

June 2019 to March 2021

Duties included arriving to the scene of an emergency, determining the situation, and developing a plan of action; using appropriate medical equipment and comprehending the severity of the injury or condition; monitoring patient condition and perform data collection; communicating findings and patient condition to primary Registered Nurse (RN); and Assisting with the mobilization, ambulation, and transport of patients.

Medical Assistant

Mobile Diagnostic Center

September 2015 to August 2019

Duties include verifying patient information by interviewing patient; recording medical history; confirming purpose of visit. Prepares patients for examination by performing preliminary physical tests; taking blood pressure, weight, and temperature; reporting patient history summary; administering injections and medications as directed by the physician.

Hyperbaric Technician and Office Assistant

Springhill Wound Care

August 2018 to May 2019

Duties as a hyperbaric technician includes performing hyperbaric oxygen therapy on approved patients under the direction of a physician, operating and monitoring hyperbaric chamber and other hyperbaric support systems and performing necessary maintenance to systems daily. Duties as an office assistant include handling organizational and clerical support tasks such as organizing files, scheduling appointments, and verifying insurance eligibility.
