Work Experience

ER Nurse

St Luke's Hospital - Maumee, OH

November 2018 to Present

Utilizes various strategies to assess patient, family, employee and environment of care strengths and weaknesses to determine appropriate action plan(s) 2. Develops a detailed plan of care, which includes patient / family education, based on initial and on-going assessment findings to optimize patient outcomes. 3. Communicates with patients, families, subordinate staff and peers to ensure that plans and associated interventions are understood, operationalized and revised, as appropriate. 4. Assigns, delegates, and supervises other employees and intervenes as appropriate to ensure that the plan of care is carried out and that established outcomes are achieved through availability and appropriate utilization of human, material and financial resources. 5. Evaluates the effectiveness of plans and interventions to promote optimum achievement of established goals. 6. Collaborates formally and informally with other members of the healthcare team, including facility and DMC representatives, to identify opportunities for improvement and develop strategies for enhancing clinical practice. 7. Establishes relationships with professionals in other healthcare and community organizations to develop strong partnerships that support improved patient outcomes and the health of the community served. 8. Provides supervision, including guidance, counseling, teaching and mentoring, to targeted peers and subordinates to enhance learning experiences and improve the professional practice environment within the designated work setting.
