Assist with staffing assignments

Manage resident/family concerns and follow up to ensure

- Responsible for the orientation, supervision and all required In-service and/or training of all licensed nurses, skilled aides and clinical support personnel in the state according to the parameters of the federal, state, and Company requirements.
- Evaluates direct care employee clinical competency through use of performance reviews and other tools as needed.
- Collaborates with the interdisciplinary team regarding Quality Assurance Measures
- Adheres to the corporate policy relative to reporting of on-the-job injury for workers compensation claims.

- Provides direct patient care as described in state regulations for RN, in all cases involving nursing services, including initial evaluation visits as applicable and re-evaluation of the patient's needs on a regular basis, provides nursing services, treatments, diagnostic procedures requiring specialized skills and assumes full responsibility for each assigned patient.
- Ensure coordination, development, revision, and compliance of written plan of care, policies and procedures related to each service provided.
- Ensure coordination of services when one or more licensed agencies are providing care to the patient.
- Promotes and maintains client health through teaching and appropriate rehabilitative measures.
- Ensures adequate communication between physicians, families, patients and in-home staff.
- Notifies the appropriate Company departments of admissions, stop care and discharges within the designated time frame.
- Coordinates admission of new patients within timeframe mandated by federal, state, Company or payor source.
- Completes and submits occurrence and incident reports, as well as assigned follow-up occurrence and incident reports within defined regulatory and/or Company timelines. Reviews and monitors infections and other applicable incidents.
- Ensures, or appropriately delegates, the supervision of all patient care provided by personnel.
- Responsible for electronic medical record training and documentation guideline training of all assigned registered nurses, skilled aides and unskilled employees.
- Ensures that skills checklist and competencies will be completed for all staff upon hire and annually
