I am a Registered Nurse looking for a position that has the same ideals of treating the patient and the illness. I am very versatile and am available for days or nights, along with any day of the week just requesting every other one off. I have worked multiple areas and am open to learning new position roles and specialties of healthcare.

Work Experience

Charge Nurse

Perimeter Behavioral Hospital of Springfield - Springfield, MO

November 2021 to March 2022

Perform routine procedures (blood pressure measurements, administering injections etc.) and fill in patients' charts

Adjust and administer patient's medication and provide treatments according to physician's orders.

Inspect the facility and act to maintain excellent hygiene and safety (decontaminating equipment, sanitizing surfaces, preparing beds etc.)

Provided instant medical care in emergencies

Fostered a supportive and compassionate environment to care for patients and their families.

Enforced a safe, therapeutic environment that protects child's rights.

Maintained a professional relationship with patients, family members and fellow staff members.

Monitored, assessed and documented children to young adults in a timely manner.

Registered Nurse (RN)

Woodland Manor Nursing and Rehabilitation

April 2021 to July 2021

Registered Nurse

Brookhaven Health and Rehabilitation - Springfield, MO

November 2020 to April 2021

I was hired for a position on the lockdown unit to work with the younger population of about 25 individuals with psychiatric and/or behavioral issues to prepare them to live on their own or in assisted living facilities so they did not spend the rest of their lives in nursing homes. I monitored behaviors and assisted medication administration, food and meals, bedtime routines, and activities.

In addition when needed I would care for up to 35 residents planning, performing duties as treatments or procedures as necessary for the geriatric population.

I assessed and documented any care done or new concerns and outcomes.

Contacted physicians when necessary and worked with a team of really great

Registered Nurse

Springfield Health and Rehabilitation - Springfield, MO

August 2018 to June 2019

I regularly cared for 56 residents by performing any treatments as ordered. An example is any wound care with dressings for pressure related skin issues also to preventative care for pressure related or non-related skin care.

I assessed and documented any care done or new concerns and outcomes.

Contacted physicians when necessary and worked with a team of really great individuals.

Registered Nurse

Mercy Pain Management - Springfield, MO

June 2016 to March 2019

Assisted in the procedure room as I am ACLS certified I gave the patient light conscious sedation and monitored vitals. I worked in most of the department as we all learned to do most of the positions. Working intake we assessed patient and checked them in before procedure. Also worked in recovery where I discharged patients and went over further instructions for home care.

I picked up extra shifts at the main hospital and worked in the float pool to any Med-surg or Cardiac floor that needed staff. There I cared for about 5 patients. I was responsible for timely assessments, documentation, lab and vital monitoring, notifying physician of any changes in patient status.

Registered Nurse

Mercy Hospital - Springfield, MO

May 2014 to March 2019

Graduated Nursing school and worked as a Med-surg and inpatient hospice on 3C before they combined with 3D, orthopedics. I performed admissions, assessments, documentation, monitoring lab values and vitals.
