Work Experience

Registered Nurse

January 2022 to Present

I have honed the ability to quickly adapt to new hospitals/clinics/long-term care facilities, through work as an agency nurse.

Registered nurse

UCHealth Colorado - Colorado Springs, CO

February 2022 to May 2022

Labor and Delivery nurse resident at UCHealth. This was an incredible work experience that gave me the most incredible patient population to work with. I gained credential in fetal heart monitoring, and NRP. I sadly had to leave this residency program because I could not afford to live in Colorado Springs on the hourly wage. Wonderful experience, and incredible hospital.
