RELATED EXPERIENCE

Registered Nurse, Medical-Surgical Unit, NM Kishwaukee Hospital, Dekalb, IL December, 2021 – present

- Prescribe, delegate, and coordinate care for the medical-surgical patient.
- Collect and analyze data, identify expected outcomes, develop and implement specialized plans and orders.
- Collaborate with patients, their family, physicians, and ancillary staff.
- Evaluate and document the patient's response to nursing intervention in the EMR, and properly individualize the plan of care based on the evaluation of findings as well as evidence-based practices.

Patient Care Technician, Float Resource, NM Central DuPage Hospital, Winfield, IL September 2020 – 2021

- Provide patient care within the nursing assistant scope of practice for inpatients in the ICU, ICU step down, medical-surgical, oncology, and psychiatric units.
- Act as a House-Resource PCT and coordinate directly with the Nursing Supervisor to support multiple inpatient areas.
- Assure accurate documentation, adhere to patient confidentiality and hospital policy guidelines.
