Lake Charles Memorial Hospital
Louisiana

Memorial Hospital is the leading health system in southwest Louisiana. There is a team of over 2,200 employees and more than 100 employed physicians representing 18 specialties. Lake Charles Memorial Hospital offers the largest, full service emergency department in the region with services such as cardiovascular, neurosurgery, tele stroke program, orthopedic trauma, general trauma surgery, psychiatric trauma as well as the largest ICU in southwest Louisiana. With this pandemic the hospital has designated two units to care for Covid 19 patients (including an ICU) which are very effective in meeting the needs of patients that are brought to the hospital.
