- management of invasive lines, drains, and devices
- Ventilator management in conjunction with respiratory therapist
- frequent and detailed assessment of body systems

Travel Nurse

University Medical Center of Southern Nevada - Las Vegas, NV

September 2020 to December 2020

Travel RN (ICU)

Mount Sinai Health System - Miami Beach, FL
June 2020 to August 2020

RN, BSN - Medical/Surgical ICU & CVICU

Emory St. Joseph hospital - Atlanta, GA
March 2020 to June 2020

As a Registered Nurse at Emory's St. Joseph's MSICU & CVICU, I cared for critically ill cardiac and medical patients expecting surgical procedures — valve replacement, CABG, aneurysm repair, pacemaker placement, etc.. I managed pulmonary artery catheters in the assessment of patient's hemodynamic status, in addition to other forms of invasive monitoring such as central venous pressures on central lines and arterial blood pressures. I also cared for COVID-19 patients being treated with study drugs while maintaining strict respiratory and contact isolation.

RN, BSN - Surgical/Trauma ICU

Grady Memorial Hospital - Atlanta, GA
October 2017 to March 2020

As an RN on Grady Memorial Hospital's Surgical Intensive Care Unit I cared and advocated for critically ill patients while working with a multidisciplinary team of healthcare providers. I managed invasive lines/ devices, titrated the infusion of intravenous drips, and completed frequent nursing assessments with interventions using critical thinking skills to better patient outcomes. As a member of the CLABSI unit based council I assessed, dressed, and audited central lines on unit patients weekly. During my time at Grady Memorial Hospital I have been awarded with 3 DAISY pins, nominated as a finalist for The Rookie of the Year award (2018), and nominated as a finalist for the March of Dimes: Nurse of the Year award (2019).
