## Work Experience

---

### Registered Nurse ICU

Cynet Health - Farmington, NM

July 2021 to Present

Currently working my third extension at this facility which traditionally provides services within a 200-mile radius. Stroke, EVD, various chest tubes, Covid, CBI, Impella and Minnesota tube management are examples of the level of care provided within this 23-bed ICU. I serve as Charge RN on occasion.

### Registered Nurse ICU

Krucial Staffing - Austin, TX

January 2021 to May 2021

32-bed unit specializing in stroke care, mixed Covid-19 unit, trauma, cardiac, CRRT. Intense, busy environment. Praised by management for lack of charting errors and eagerness to learn the culture.

### Registered Nurse ICU

Gerald Champion Regional Medical Center - Alamogordo, NM

January 2019 to January 2021

Vents/trachs, EV1000, central lines, telemetry, ICU covid unit, Cerner, Pyxis, s/p cath lab, post stroke care.

### MEDICAL-SURGICAL RN

Artesia General Hospital - Artesia, NM

April 2018 to January 2019

Responsible for the delivery of care to patients utilizing the nursing process of assessment, planning, intervention, implementation, and evaluation; and effectively interacts with patient, significant others, and other health team members while maintaining standards of professional nursing.

## **MEDICAL IMAGING BUSINESS CONSULTANT**

MOLECULAR IMAGING RESOURCES, LLC

May 2005 to September 2018

Offer keystone business solutions for new medical imaging ventures, as well as technical, human resource, and administrative solutions for existing entities. Proven system for increasing patient volume in various community types ranging from rural to urban.

## **DIRECTOR OF OPERATIONS**

P.E.T. IMAGING SYSTEMS

August 2001 to May 2005

Managed all staff and every department of this multi-center medical imaging company which included marketing staff and health physicists; coordinated billing activities between payors and the billing company which many times included penning letters of medical necessity; developed and maintained the annual budget which totaled over \$5 million; oversight of PACS and IS Analyst systems; business development that resulted in a strong network of referring physicians; filled in as a technologist as needed.

## **NUCLEAR MEDICINE TECHNOLOGIST**

UNIVERSITY OF MARYLAND MEDICAL CENTER

September 1998 to August 2001

Performed all conventional scans using standard protocols, applied special protocols in research patient population, maintained the hot lab, kept meticulous documentation, developed specialization in cardiac and PET imaging to include certification in both. This large department boasted state-of-the-art ADAC, Siemens, LSO, and GE gamma cameras.
