**Objective:** To achieve a position as a professional BSN registered nurse, which will allow me to pursue a career in acute health or skilled care setting. I strive for the opportunity to help heal by treating patients with compassion and educating them in prevention of illness. My desire is to become an active member of the interdisciplinary care team.

**Professional Experience:**

**Village Manor, Wood Village, Oregon...** October 2020-Present

Day Charge RN for privately owned ICF. Responsible for Organization and Leadership of Care for Residents, including assessment, treatment, professional SBAR charting excellent communication with RCMs and DNS Primary MD/Specialists, Residents, Guardians.

**Good Samaritan Fairlawn Village, Gresham, Oregon ..**-July 2020

Day Charge RN for Skilled and ICF, Residents.

**Essential Quality Care, Portland, Oregon ...**-Oct 2018-Nov.2020-

Delegation and Home Care for Medically Fragile Children.

**Adventist Health, Western Health Resources Portland, Oregon,** June 2015-Oct 2018

RN, BSN, Certified in Delegation for CIIS and LTC; Specializing in Fragile Children.

Teaching and Delegation of Trained Caregivers working with State and County DHS for requirements for competent, safe care of fragile children in home or facility. Investigating and Assessment of Child and Situation; Coordinating Care with DHS/State/County/ Primary Care Provider and Specialists. Compiling and updating Plan of Care with Visits to home or facility for Assessment and Delegation of Caregivers at intervals determined by RN, and to meet requirements.

RN, Medically Fragile Children Responsibilities: • Caring for the welfare of medically fragile children, helping them with ADLs, monitoring and medicating for seizures; resuscitation with ventilator or ambu-bag. Resulting in a decrease in seizure activity, and ability to lead a more alert, active life for young patients on ventilators, with tracheotomy, gastronomy, and catheter care.

• Updating the patient care plan as needed, Communicating, collaborating with physicians, therapists, parents, teachers. Alerting to changes in assessments and resultant protocols.

• Functioning as private patient school nurse in David Douglas, Portland and Oregon City public schools, and as home care nurse, I contributed to the education, assisting in teaching sign language and computer skills so that patient could “speak” and needs could be understood.

**Providence St Peter Hospital, Olympia, WA,** March 2015 to June 2015
