Work Experience

Nurse Investigator- Covid 19

Washington Ozaukee Public Health Department

Present

I am a covid-19 Investigator for the county. I make calls and complete interviews with covid positive cases. I give them guidance as to isolation and quarantine, answer questions and assist them in finding resources to feel comfortable and well informed. I also provide a three month follow up call to check in and see if and how this has affected them, including phone assessments of current symptoms. I enjoy this position greatly, however being a contract position, I am starting to look for steady, long term employment in my community.

LPN - Travel Nurse- Home Care

Heartland Home Health Care and Hospice - Brookfield, WI

October 2007 to May 2008

I cared for patients in their home or care facility. I was responsible for assessments, medication administration, patient and family teaching, treatments and injections. I was responsible for time, supply and transportation management to and from patient sites. I was in charge of accurate documentation and charting and detailed reporting to each Case Manager.

LPN

Samaritan Health Care Center - West Bend, WI

July 2004 to October 2007

I cared for patients as an LPN Float Wing Nurse. I was utilized where I was most needed. I learned three floors of patients and staff members and worked throughout the building. I was responsible for leading a team of CNA's, patient assessments, medication administration, patient teaching, treatments, time management skills, accurate documentation on a computerized MAR and detailed reporting to shift manager and pm nurse.
