Work Experience

LPN/LVN

Maxim Healthcare Services | Promedica (Towson) Skilled Nursing Facility and Rehabilitation Center - Towson, MD

October 2021 to March 2022

- Utilizes the nursing process to plan, implement, treat and evaluate the patient/inmate
- Integrates and implements referrals of inmates to the staff physician, nurse practitioner, dentist, mental health professional
- Looks for signs and symptoms indicating physiologic and psychosocial changes in the patient's condition and reports to RN
- Documents the patient's plan of care using identified nursing diagnoses, expected patient outcomes, and selected nursing interventions
- Monitors consistency between patient plan of care and actions of medical staff
- Collaborates with RN regarding the plan of care according to evaluation, changes in medical plan of care, and effective/ineffective nursing interventions
- Documents patient's response to nursing and other interventions
- Uses clinical judgment in evaluation and responding to emergency medical situations involving inmates or staff
- Monitors the safety and effectiveness of the environment and equipment
- Participates in infection control activities in accordance with department and as directed by Infection Control Coordinator
- Participates in the orientation and continuing education of staff
- Participates in the Health Quality Improvement Program
- Supports professional practice by observing the following: Uses knowledge in accordance with 1) the Nurse Practice Act; 2) Standards of Nursing Practice; 3) Standards of Patient Care; 4) The Joint Commission, state and local laws; 5) Patient's Bill of Rights; and 6) Maxim Healthcare, nursing and client policies
- Performs other duties as assigned/necessary

LPN

WellPath Correctional Nursing | Charles B Webster Detention Center - Richmond County, GA

September 2020 to October 2021

- Under supervision of a Registered Nurse (RN), assists in the assessment of the physical, psychological and social dimensions of patients in the Health Care Unit and, as necessary, in the housing units.

- Assists in planning an individual treatment program by using available resources in planning care, and consults with RNs and other staff as appropriate while applying knowledge and resources in planning care and patient teaching.
- Implements individualized treatment programs as directed by the Health Care Practitioner.
- Count controlled substances, syringes, needles, and sharps at the beginning of each shift with another staff member and sign count logs.
- Implements clinical and technical aspects of care in accordance with established policies, procedures and protocols. Intervenes with proper safety techniques, procedures and standard precautions.
