I am an enthusiastic LPN with excellent communication skills and a dedicated work ethic. I have been professionally trained with experience ensuring high standards of culturally competent care for a wide variety of patients with diverse needs. Over the last 23 years, I have been fortunate enough to work in the healthcare field, in a variety of settings. I started out in long term care working with both the geriatric population as well as young adults with head injuries, mental illness and some chemical dependency at the Red Wing Health Center. I was also fortunate enough to be a part of the staff at St John's Hospital, where I was primarily part of the ER team, while also floating to the Med-Surg. and OB floors and occasionally part of the OR team. Homecare and Assisted Living have been my most recent endeavors, where I have assisted clients with Parkinson's, Dementia, Alzheimer's and Hospice.
