To progress in my nursing career and broaden my experience and skill level in a new position.

Work Experience

Pre-op/PACU RN/OR Circulator

Advanced Urology - Atlanta, GA
September 2020 to Present

I am responsible for prepping patients for surgery, getting vitals, doing assessments, starting IVs, and verifying medical history. When I work in Pa Cu I am responsible for recovering patients from same day surgeries, monitoring vitals, going over education and discharge instructions.

In the OR, I am responsible for prepping patients for surgery, ensuring all charting and paperwork is correct and complete and assisting the surgeon and scrub tech during the case.

Registered Nurse

NORTHSIDE HOSPITAL
March 2013 to Present

I have worked on the orthopedics and urology unit for the entire six years that I have been at Northside. I have served as a bedside nurse as well as relief charge, educator, and coordinator.

Assistant Manager

LANE BRYANT
October 2010 to October 2012

Education

ASSOCIATES DEGREE in Registered Nursing

WEST GEORGIA TECHNICAL COLLEGE
December 2012

Nursing Licenses

RN

Expires: January 2021

State: GA

Skills

- **MANAGEMENT**

- I have a great deal of previous management experience including serving as an assistant manager in several retail jobs, as a front of house manager in a restaurant and as a relief charge nurse at Northside Hospital. **COMMUNICATION**
- I am well versed in communicating with my fellow employees as well as patients and family members. I have taught the total joint class at Northside for several years. I have also used my communication skills in coordinating the mentor program for 8E. **LEADERSHIP**
- I have served as a relief charge nurse for approximately three years. I am also the coordinator of the mentor program for my unit as well as the mobility superuser. In addition, I am one of the superusers for the orthopedics unit and assisted the staff in the recent transition from McKesson to Cerner. In all of these roles I have used my leadership skills to guide, educate and assist my coworkers in the performance of their daily tasks.
- I have worked for seven years on a post operative unit for orthopedics and urology so I am very familiar with those types of surgery patients. Some of the most common surgeries we care for regularly include total knees and hips, prostatectomy, cystectomy, ileoconduit, and any patient who needs to be on continuous bladder irrigation (Murphy Drip). I also have a great deal of experience with placing difficult catheters as well as caring for and exchanging suprapubic catheters. • **Medication Administration**
- Vital Signs
- Orthopedic and urology surgeries
- Supervising Experience
- Employee Orientation
- English
- Customer service
- EMR Systems
- Patient Care
- Medical Records
