## Profile:

Efficient, adaptable and reliable nurse; with eight months of experience working on a medical surgical unit and prior experience working with a variety of age groups ranging from premature infants to children to geriatric population. Now seeking to transition into role where my skills and knowledge can be utilized and challenged. I am dedicated to striving for excellence in the care I provide through patient and family-centered care, evidence-based practice, and patient education. I believe that fine-tuning my communication and collaboration skills is just as important as advancing my clinical skills. My goal is to continually strive to better my nursing practice and the lives of the people I serve.
