jacquiensn@gmail.com

Objective

My goal is to provide a service of excellence. A service integrated with quality compassionate holistic family-centered care. This is achieved by coordinating the services provided via the use of healthcare resources and standardized practice, improving the overall knowledge and health of the community and consumers with a vision filled with integrity, safety, compassion and education.

Qualifications

I hold a BSN of 22 years. I am knowledgeable and skilled in providing and overseeing patient care to promote the highest level of physical, mental, and psychological function possible.

Proficient in executing comprehensive nursing care and activities by utilizing evidence based practice and the nursing process to achieve specific positive patient outcomes.

Knowledgeable in establishing a comfortable and secure relationship by enhancing the patients and families experience resulting in an increase in patient satisfaction.

Proficient in establishing guidelines for enhancing the professional development of staff through educational in-service, current research and development, and team building.
