Work Experience

Pediatric Home Health Nurse

BrightStar Care - Lenexa, KS

August 2020 to Present

Take care of and manage the care of a 14 year old girl in her home who suffers from a rare genetic defect (ALG13) that causes her to have 100's of seizures a day.

Nursing includes:

- G-tube management/Keto diet
- PRN urinary catheterization
- Seizure/safety protocol
- Medication administration

RN

Evergreen Community of Johnson County - Olathe, KS

June 2020 to September 2020

Provided care for about 25 to 50 nursing home resident's during the COVID-19 Pandemic. Took care of a strictly COVID-19 hall for a little over a month. Passed meds, placed new orders given from physicians and other disciplines, charted, performed assessments and did Med-A/MDS charting. Overall took precautions and safety measures to minimize the spread of COVID-19 on a locked down dementia unit while also taking care of the resident's holistically during a very difficult time.

RN

Children's Mercy Kansas Hospital - Kansas City, KS

January 2020 to June 2020

New grad nursing position. Started IV's, placed NG tubes, gave various routes of medications such as IV, oral, NG & injections. I collaborated as a team player to other RN's, physicians, RT, PCT to care for pts. Charted assessments and other important documentation. Draws labs and perform other bedside nursing duties/skills. I was unfortunately furloughed and then laid off due to the COVID-19 Pandemic.
