Dedicated and compassionate Registered Nurse (RN) with progressive career history in direct patient care and care coordination in fast-paced critical care environment. Proven to remain calm under pressure and skillfully handle difficult patients and high-stress situations. Consistently developing strong relationships with patients and families through empathetic communication, respectful attitude and excellent customer service. Attentive nursing professional presenting high level of care, patient assistance and assessment during each shift. Considered hardworking and driven. Ready for new opportunity to apply exceptional nursing skills to high acuity patients.

WORK HISTORY

March 2021 to Current

Registered Nurse *Mary Washington Hospital*,
Fredericksburg, Virginia

- Collaborated with physicians to quickly assess patients and deliver appropriate treatment while managing rapidly changing conditions.
- Educated patients, families and caregivers on diagnosis and prognosis, treatment options, disease process and management and lifestyle options.
- Trained new nurses in proper techniques, care standards, operational procedures and safety protocols.
- Provided direct patient care, stabilized patients and determined next course of action.
- Administered medications and treatment to patients and monitored responses while working with healthcare teams to adjust care plans.
- Monitored patient condition by interpreting and tracking EKG readings, identifying irregular telemetry readings and updating team members on changes in stability or acuity.
- Administered medications via oral, IV and intramuscular injections and monitored responses.
