+1 442 456 0191

Through the experiences I've had in my life such as working in the fields, Ivrop CNA program, Amazon, and my RN program, I've gained many lifelong skills to carry me into success. Working in the fields taught me what it meant to work hard by having to wake up at five am and put in the work through dry desert weather in the low hundreds range. I enrolled in the IVROP CNA program during high school. I then realized the value that came from helping others and being there when needed. I decided to enroll in the nursing program IVC. During one of the summers of my program, I was able to work at Amazon. At Amazon, I learned how to work with others to get the job done. Through my experiences in the IVC nursing program, I realized that ultimately this would be the perfect environment for me to flourish in. I learned to care for many patients by the usage of my compassion, empathy, and determination ensuring my patients were overall better before I left. Afterward, I got a job at Grifols Biomat where I furthered and strengthen my nursing skills. I perform nursing duties such as physicals, donor education, donor counseling, lab reviews, specimen handling, specimen examination, building rapport with donors, and responding to emergency events. I've gained many traits throughout my journeys such as discipline, perseverance, progress, compassion, empathy, and the value of teamwork which have all combined to make me, overall, a better worker and a better person.

Willing to relocate to: Ontario, CA - Rancho Cucamonga, CA - Riverside, CA

Authorized to work in the US for any employer

Work Experience

CMS (center medical specialist)

Grifols Biomat Plasma Donation Center - Upland, CA

November 2021 to Present

After graduating from nursing school, I landed a role at Plasma Center Grifols Biomat. As a CMS, center medical specialist, I perform nursing duties such as:

- daily physicals
- donor education on nutrition and health planning
- donor counseling in relation to donors' health/lab values
- review of current lab values
- specimen handling (primarily blood samples)
- specimen examination (blood samples)
- building rapport with donors
- handling delegation
- responding to emergency events on-site.

RN Student Nurse

Imperial Valley College - Imperial County, CA

August 2019 to June 2021

I was enrolled in the RN program at Imperial Valley College. We would have our clinical rotations at Pioneers Memorial Hospital, El Centro Regional Medical Center, Wound Care Center in Brawley, and clinics around the Imperial Valley including the Day Out center and El Centro Outpatient Clinic.

Responsibilities Included:

- Gave medications (IV/PO/SQ/IM/NG tube/Rectal)
- Participated in COVID and Flu Vaccination Fairs
- Every hospital shift performed duties of a student nurse: assessment/charting
- Inserted IV's, ran fluids through the pump, operated IV pumps
- Assisted Doctors, CNA's, Therapy Team
- Practiced PPE precautions

Volunteer/Intern

AccentCare - El Centro, CA

February 2019 to March 2019

I volunteered about 100 hours at this hospice facility. I would either be used as a translator which in many instances I would be the main voice of Spanish-speaking families and the ears for my English-speaking supervisor or I would ride along and learn valuable lessons from multiple nurses with years of experience.

Education

Associate's degree in Nursing

Imperial Valley College - Imperial, CA

August 2019 to June 2021

Associate's degree in General Science

Imperial Valley College - Imperial, CA

August 2017 to June 2019
