2. Monitor vaccinate patients
3. Screen patients for any abnormalities
4. Defibrillator, Titration, and administrate all type of vaccines, Pfizer, Moderna and J&J

Registered Nurse (RN)

Los Angeles Community Hospital - Los Angeles, CA

March 2021 to October 2021

- As Telemetry Nurse on COVID-19 Floor I am responsible of ;
- Provides patient care, reviews and administers patient medications, treatments and procedures in a safe, effective and age appropriate manner that meets scope of practice and standards of nursing practice. Recognizes change in patient's clinical conditions, taking appropriate action and documenting intervention. Effectively collaborates with the health care team to intervene, and advocate as necessary. Intervenes appropriately in instances of abuse, assault or neglect, or when adequate financial or social resources are not available. Makes appropriate referrals to resolve patient issues effectively.
- Develops long and short-term goals consistent with treatment plans, standards of practice, and the plan of care, incorporating patient preference and discussing plan of care with patient. Appropriately utilizes pain management resources and other interventions to provide pain relief. Provides ongoing assessments and documents the patient's physical and psychosocial condition, as well as response to care. Reviews patient test results, identifies critical results, and communicates in a timely manner consistent with the condition of the patient and correlates information into the plan of care. Consistently ensures nursing practice is evidence based, within scope of licensure and compliant with hospital wide standards of nursing care, including core measures. Ensures Infection Control procedures and HIPPA compliance.
- Collaborates with staff, physicians and members of the healthcare team, ensuring the coordination of care between other disciplines and support staff. Supervises, monitors and delegates patient care activities to appropriate members of the health care team, provides effective leadership and ensures that care is safe and of high quality. Acts as a source of information and articulately responds to questions, providing resources, guidance, and education about treatment plan, plan of care, and medications. Develops and implements accurate teaching and ongoing discharge plans.
- Empathizes with patient and patient support systems, expresses compassion and understanding for the situation and demonstrates care which is appropriate for the age, and cultural, religious, gender identity, or ethnic background. Engages in caring behaviors, taking conscious ownership for work and takes deliberate/thoughtful actions regarding how to best carry out interactions with the patient, families, physicians, and co-workers.
