## Work Experience

---

### **Registered Nurse**

Westways Staffing Services - Renton, WA

January 2022 to Present

Administration of various vaccines at Safeway Stores located in Benton County to the general public including 1st through booster doses of both Moderna and Pfizer Covid-19 products and well as Shingles, Tdap, Flu, Typhoid and Polio vaccines using aseptic technique while maintaining accurate administration records while utilizing safe Covid-19 protocols.

### **On Sabbatical completing my Bachelor in Science in Nursing degree.**

Western Governor's University - Salt Lake City, UT

June 2020 to November 2022

I am currently attending and am successfully completing Western Governor's University's ASN to BSN program.

### **Registered Nurse**

Oregon State Hospital - Junction City, OR

January 2019 to May 2020

- I was responsible for observing and assessing resident's physical and psychological condition, including behavioral changes.
- I assessed medication and food allergies and monitored resident response tolerance to medications.
- I assessed treatment needs and developed Nursing Care Plans and made changes to treatment when indicated.
- I maintained written records, including Nursing Care Plans, treatment plans, progress notes and medications.
- I documented reports involving unusual incidents involving residents or staff.
- I participated as a member of the Interdisciplinary Team to develop and plan scope of treatment for the residents Medication and Treatment.
- I verified and implemented physician orders. Counter-signed transcriptions of physician orders on Medication Administrative Reviews (MARS) and Treatment Administration Reviews (TARS).

- I acted as leader during crisis and assumed hands-on decision making responsibility until physician or emergency medical team arrived.

#### Patient and Staff Education:

- I educated residents and their families about mental illness, medical and physical needs and the importance of following prescribed medication regime. I taught daily living and self-management skills to residents in managing their mental illness and medical needs.
- I provided professional leadership for staff regarding program policy, therapeutic milieu, and safety of residents and staff.
- I exhibited professional leadership, resolved problems with staff when possible or referred these issues to a supervisor.
- I have acted as the lead MHRN on the shift to direct and coordinate MHT1 and MHT 2 staff.
- I directed, coordinated, monitored, and adjusted the number of staff on shift and assigned staff duties to assure a safe, secure and therapeutic environment.

### **Registered Nurse**

Maxim Healthcare/Oregon State Penitentiary - Salem, OR

April 2018 to August 2018

I assisted the Medical Services Manager in the operation of the healthcare unit at the institution in the development, direction, coordination, and evaluation of professional nursing practices, and by assumed responsibility for the operation of the unit in the absence of management staff.

I assessed inmates' physical and emotional condition during sick call, ambulatory care clinics, and infirmary rounds; I collaborated with other members of the interdisciplinary healthcare team to develop a comprehensive plan of care and maintain continuity of treatment; I developed treatment and nursing care plans on inmates with chronic medical problems; administered medical and nursing treatment plans including medications, treatments, dressings, monitoring and evaluating vital signs and IVs.

I evaluated and carried out physicians/dentists/nurse practitioner orders; checked allergies, dosages, intended effects of medication, side effects, and drug interactions; I initiated appropriate interventions according to health care priorities identified in procedure and standing order protocol; coordinated health care received by inmates by scheduling services for on-site and community-based services in conjunction with other institution activities; evaluated and monitored medical supplies to ensure availability of appropriate supplies, accurate accounting and secure storage, including maintenance of narcotic, needle and syringe counts; evaluated new and replacement medical equipment. I operated equipment necessary for the provision of patient care, and monitored equipment used in the healthcare area and took steps to repair or replace equipment to ensure it was working properly.

I maintained accurate, legible and complete records of patient care including chart documentation, objective data collection and treatment provided. I evaluated treatment effectiveness, patient education provided, and the writing of nursing care plans and interdisciplinary treatment plans.

I directed subordinate health care staff assigned to a patient care area or shift to ensure that assigned duties are consistent with the employee's skills, training, and licensure or certification and ensured that job performance was consistent with written and verbal instructions and that the staffing mix met the operational priorities of the program. I ensured that practice was consistent with state licensure laws, administrative rules, policies and procedures and reported practice deviations to my immediate supervisor and participated in corrective action, if necessary.

## **Registered Nurse**

Maxim Healthcare/Oregon State Psychiatric Hospital - Salem, OR  
October 2017 to March 2018

- I was responsible for observing and assessing resident's physical and psychological condition, including behavioral changes.
- I assessed medication or food allergies and monitored resident response tolerance to medications.
- I assessed treatment needs and developed Nursing Care Plans and made changes to treatment when indicated.
- I maintained written records, including Nursing Care Plans, treatment plans, progress notes, medications and case records.
- I documented reports involving unusual incidents involving residents or staff.
- I participated as a member of the Interdisciplinary Team to develop and plan scope of treatment for the residents Medication and Treatment.
- I verified and implemented physician orders. Counter-signed transcriptions of physician orders on Medication Administrative Reviews (MARS) and Treatment Administration Reviews (TARS).
- I acted as leader during crisis and assumed hands-on decision making responsibility until physician or emergency medical team arrived.

### **Patient and Staff Education:**

- I educated residents and their families about mental illness, medical and physical needs and the importance of following prescribed medication regime. I taught daily living and self-management skills to residents in managing their mental illness and medical needs.
- I provided professional leadership for staff regarding program policy, therapeutic milieu, and safety of residents and staff.
- I planned, organized, developed and evaluated classes or group therapy in areas such as alcohol and drug abuse, human sexuality, and psychiatric rehabilitation.
- I exhibited professional leadership, resolved problems with staff when possible or referred these issues to a supervisor.
- I acted as the MHRN on the shift to direct and coordinate MHT1 staff.

- I directed, coordinated, monitored, and adjusted the number of staff on shift and assigned staff duties to assure an adequate number of staff on shift and assigned staff duties to assure a safe, secure and therapeutic environment.
- I assessed staff performance and provided informal feedback to the supervisor.
- I participated in training and orientation of new employees.
