Caring, compassionate, Registered Nurse skilled in providing high quality and safe patient care utilizing evidenced based practices and procedures.

Work Experience

Critical Care Clinical Nurse II

Baltimore Washington Medical Center - Glen Burnie, MD

June 2020 to Present

- Delivers highly skilled nursing care for critically ill patients on a busy 32-bed unit
- Coordinates complex assessments, diagnosis, treatment, evaluation, and monitoring of patients with septic shock, cardiogenic shock, and respiratory failure as part of the multidisciplinary team
- Cardiopulmonary Resuscitative (Code Blue) Nurse for an inpatient population of 285 beds

Registered Nurse, II

MedStar Union Memorial Hospital - Baltimore, MD

February 2019 to June 2020

- Provides direct, specialized, and culturally competent nursing care to a diverse patient population requiring continuous cardiac monitoring.
- Utilizes evidence-based practice and organizational policies to coordinate and provide high quality, safe, and compassionate patient care for up to 4 patients.
- Collaborates with clinical team to develop, implement, and evaluate individualized patient plan of care addressing the physical, psychosocial, and spiritual needs of the patient/family.

Licensed Practical Nurse

Crofton Care and Rehabilitation Center - Crofton, MD

June 2017 to January 2019

- Provided direct patient care and Medicare charting for an average of 16 patients receiving skilled nursing services on a subacute rehabilitation unit.
- Functioned as supplemental nurse supervisor, working closely with multidisciplinary team members to ensure safe comprehensive patient care.
- Selected by nurse manager to orient new nurses to facility policies and procedures, applicable laws, and evidenced based guidelines.

Licensed Practical Nurse

Lorien Rehabilitation - Elkridge, MD

July 2016 to January 2018

- Provided bedside care and clinical documentation for 12-20 patients receiving skilled nursing services on a subacute rehabilitation unit and long term care unit

- Collaborated with patients, families, and the healthcare team supporting optimal patient centered care planning
- Monitored patient's clinical condition accurately reporting and documenting changes in a timely manner promoting positive patient outcomes

Dispensing Nurse

Starting Point Clinic - Brooklyn Park, MD
March 2014 to June 2016

- Prepared and dispensed Methadone doses accurately and in accordance with State, Federal, and DEA regulations to promote opiate addiction treatment
- Utilized electronic medical records and system software to process and document dosage changes
- Reconciled daily methadone medication inventory at conclusion of dosing
