- 

**KEY ACCOMPLISHMENT**

My time in the military afforded me the ability to care for 20 patients in one day, being able to complete and test as an Air Force IBT, (Immunization Back-up Technician). Completing the Air force hearing conservation course and becoming an Audiology Technician. Making sure military members received the best healthcare, while staying fit by recommending the HAWC to my patient all while being an aeromedical technician. (4NO51). Becoming an LPN and now realizing my dream of being a Registered Nurse.
