Work Experience

Registered Nurse (RN)

IntelyCare, Inc. - Chicago, IL
April 2020 to Present

Intelycare is a staffing agency, I work in various skilled nursing facilities in the Chicagoland area. I am assigned up to 25 clients per shift. I administer medication orally and via g-tube, perform wound care, insert, and remove foley catheters, order and report labs and diagnostic testing, contribute to the nursing care plan, complete routine assessments as well as new admissions. I insert and maintain peripheral IV lines, and I supervise CNAs during my shift. I also educate clients and their families about disease process during their stay as well as upon discharge.

LPN

PALOS COMMUNITY HOSPITAL HOME HEALTH
July 2018 to March 2020

I visit up to eight patients per day in their home to provide skilled nursing. I perform wound care including wound vacs and phlebotomy, I administer vaccinations, insert and remove Foley catheters, drain pleurex catheters, reconcile medications and assist patients with daily medication organizer. I also reinforce patient teaching to prevent hospital re-admission and perform a head-to-toe assessment during each patient encounter.

LPN

LEXINGTON OF LA GRANGE
February 2017 to July 2018

I was responsible for up to twenty-three patients per shift. I administered medication orally and via g-tube, performed wound care, ordered and reported labs and diagnostic testing, completed routine assessments as well as new admissions. I also covered for wound care nurse for six months and successfully performed four wound care procedures with IDPH. I received extensive training from WOCNs.

LPN

AUTUMN GREEN AT MIDWAY VILLAGE
January 2014 to February 2017

Administered medication to thirty-five patients per shift, maintained monthly nursing notes, MARs and vital signs logs, ordered medication from pharmacy as needed. Ordered and reported labs and diagnostic testing.
