May 2010 to 2012

Coordinate the integration of social services/case management functions into the patient care, discharge, and home planning processes with other hospital departments, external service organizations, agencies and healthcare facilities. Conduct concurrent medical record review using specific indicators and criteria as approved by medical staff, CMS, and other state agencies.

Act as patient advocate: investigates and reports adverse occurrences, and performs staff education related to resource utilization, discharge planning and psychosocial aspects of healthcare delivery. Promote effective and efficient utilization of clinical resources. Mobilizes resources and interviews, as needed, to achieve expected goal to assist in achieving desired clinical outcomes within the desired timeframe. Ensure that patient tests are appropriate and necessary and are carried out within the established timeframe and that results are promptly available. Conducts review for appropriate utilization of services from admission through discharge. Evaluate patient satisfaction and quality of care provided. Initiates and presents "denial letters", as appropriate. Assesses patient care required throughout continuum of care for diagnosis, procedures and DRG's. Communicates with physicians at regular intervals and develop an effective working relationship. Assist physicians to maintain appropriate cost, case, and desired patient outcomes. Introduce self to patient and family and explains clinical case manager role and process for patient and family to contact clinical case manager.

Complete expanded assessment of patients and family needs at time of admission. Complete psychosocial assessment. Assess patient's progress through expected hospice stay.

Refer cases where patients and/or family would benefit from counseling required to complete complex discharge plan to social worker. Serve as a patient advocate. Enhances a collaborative relationship to maximize the patient's and family's ability to make informed decisions. Facilitates interdisciplinary patient care rounds and/or conferences to review treatment goals, optimize resource utilization, provide family education and identified post-hospice needs. Collaborate with clinical staff in the development and execution of the plan of care, and achievement of goals. Direct and participate in the development and implementation of patient care policies.
