WORK EXPERIENCE

Christus Trinity Mother Frances

07/2021 -- Current

As an ICU nurse I am responsible for the following actions:

- Collaborate with Physicians and other member of the patients care team to provide optimal patient care.
- Titrate critical care medications based on patient vital signs.
- Perform thorough assessments on my patients and closely monitor for changes in assessment findings.
- Discuss end of life options and care with patient family members.
- Provide education and supervision to student nurses.
- Monitor patient vital signs and provide interventions as appropriate.
- Evaluate interventions provided to patients.
- Document about the patient in the MAR and electronic chart.
- Assist other team members in care for their patients when needed.
- Complete a daily care plan for each patient.
- Advocate for patient needs and safety.
- Provide a safe therapeutic environment where patients feel free to voice their needs.
- Assign tasks to patient care technicians.
- Educate patients on their disease process and plan of care.

Charlton Methodist Medical Center - Registered Nurse

06/2020 -- 07/2021

As a Registered nurse on the Med - Surg /Oncology unit I was responsible for the following actions:

- Collaborate with Physicians and other member of the patients care team to provide optimal patient care.
- Monitor patient vital signs and provide interventions as appropriate.
- Evaluate interventions provided to patients.
- Document about the patient in the MAR and electronic chart.
- Complete a daily care plan for each patient.
- Advocate for patient needs and safety.
- Provide a safe therapeutic environment where patients feel free to voice their needs.
- Assign tasks to patient care technicians.
- Educate patients on their disease process and plan of care.
- Provide preoperative and postoperative instructions.
- Nurse preceptor for new nurse residents.
- Co-chair of Patient Satisfaction team.

- Co-chair of Nurse advocacy team which appeals to leadership for fair and safe assignments and compensation for nurses on our unit.

Charlton Methodist Medical Center - Patient Care Technician

06/2019 -- 06/2020

As a patient care technician on the resource team, I was responsible for the following actions:

- Monitor patient stability using medical equipment and clinical judgement.
- Ensure patient safety.
- Monitor patients on suicide precautions.
- Advocate for patients and their needs.
- Assist patients with activities of daily living.
- Draw blood and perform EKG when working in the ED.
- Use electronic charting to document care provided to patients.
- Provide CPR in the event of a code blue.
- Train new patient care technicians.

Costco Wholesale - Meat Cutter

05/2016 -- 05/2019

I was part of a team that oversaw production and sales in the fresh foods department of a worldwide wholesale company and my responsibilities included the following:

- Prepare product for customer orders.
- Follow OSHA guidelines for food related businesses.
- Ensure health department requirements were met in my facility.
- Represent my department at quarterly facility-wide safety meetings.
- Train new team members.
- Build relationships with frequent customers and anticipate their needs.

Madix Inc. - Team Leader

01/2012 -- 10/2015

In a warehouse setting, I supervised a team of forklift drivers and heavy equipment operators and my responsibilities included the following:

- Ensure the safety of my team members through training and supervision.
- Complete Bill-of-Lading forms for trucking companies.
- Reconcile customer orders against orders pulled by my team.
- Evaluate needs and assign team member roles accordingly each day.
- Document incident reports for any injury or near miss.
- Provide forklift and safety training.
- Assist the team to pull orders when needed.
- Keep records of incoming and outgoing orders.
- Increase efficiency by developing and implementing a computer-based inventory mapping system.
