## STUDENT CLINICAL EXPERIENCE

**University of Tennessee Medical Center** **Knoxville, TN**  
*Labor and Delivery Unit, Neonatal Intensive Care Unit* Spring 2022 - Present

- Aided physicians in the delivery of pre- and full-term neonates and provided pre- and post-operative care to 5+ patients undergoing Caesarean sections.
- Interpreted fetal ECG readings and contraction patterns in 2+ laboring patients per shift to ensure the safe delivery of neonates
- Performed neonatal assessments and delivered intramuscular injections to 10+ infants.
- Monitored therapeutic responses to medical procedures such as endotracheal intubation of critically ill and premature neonates at a 67-bed Level III Neonatal Intensive Care Unit.

**University of Tennessee Medical Center** **Knoxville, TN**  
*General Surgery and Gastroenterology Unit* Spring 2022

- Performed head-to-toe assessments on 5+ patients per 12-hour shift and collaborated with healthcare professionals to plan patient-centered treatment and evaluate patient outcomes at 712-bed academic hospital.
- Initiated nasogastric tube access in patients with small bowel obstructions, bowel resections, and vaginectomies.
- Interpreted critical lab values and implemented evidenced-based care by administering a combination of enteral and parenteral medication in 20+ patients with chronic illnesses.

**Blount Memorial Hospital** **Maryville, TN**  
*Orthopedic Trauma and Medical / Surgical Unit* Fall 2021

- Managed patients' disease progression and pain through oral and intravenous medication, evaluated patients' responses to treatment, and updated team members on changes in patient acuity at 279-bed regional hospital.
- Recorded vital signs of 15 patients per shift and collaborated with nursing staff to establish patient-specific plans of care during a COVID-19 surge.
- Mastered skills such as wound care and dressing, postmortem care, insertion of straight and indwelling catheters, and drawing blood from central lines while effectively multitasking during 12-hour clinical shifts.

**University of Tennessee Medical Center** **Knoxville, TN**  
*Oncology, Urology, and Maxillofacial Surgery* Summer 2021

- Individually monitored and assessed patients for adverse reactions related to the infusion of blood products across a 30-minute time frame in patients undergoing clinical research trials.
- Sterilized central line access via implanted port in preparation for chemotherapy treatments and collaborated with the oncology team to deliver specialized, comprehensive patient care for 11+ types of cancer.
- Initiated intravenous access, facilitated stable ambulation, and administered subcutaneous injections to patients seeking curative cancer treatment at East Tennessee's largest single provider of cancer care.

## PROFESSIONAL EXPERIENCE

**Independent Home Healthcare** **Boulder, CO**  
*In-Home Caregiver* Fall 2020

- Coordinated medical appointments and assisted with daily living for a wheelchair-bound patient with Multiple Sclerosis.
- Utilized BEMER and Stand-Aid devices to preform physical therapy exercises aimed to decrease the progression of MS.

## VOLUNTEER EXPERIENCE

**Remote Area Medical** **Knoxville, TN**  
*Volunteer* Spring 2022

- Triageed patients seeking treatment and collaborated with physicians to provide \$521,824 worth of free medical care to 874 patients in low-socioeconomic communities.
