JOB DESCRIPTION:

Calculates medication doses and titrate potent medications. Inserts and cares for specialized venous and arterial infusions.

Sets up and monitors ventilators and other high tech equipment.

Cares for dying patients and provides education and support to family members faced with critical decisions such as discontinuing life support and deciding how to care for people with severe injuries.

Responds to medical emergencies in all areas of healthcare facilities. Serves as resources to other nursing units.

Provides most of the direct care to patients in life threatening situations within intensive care units.

Assesses, plans, implements and evaluates health care services for patients suffering with a broad range of health conditions.

Provides care to patients suffering from cardio-respiratory, renal, neurologic disease, trauma, severely ill surgical patients and brain injuries.

Works closely with physicians and other members of the health care team.

Possesses physical, mental, and emotional stamina to work with seriously ill patients and their loved ones.

Provides emergency care to patients suffering from cardiac arrest, life threatening cardiac arrhythmias, and other medical emergencies.

Proficient at performing and interpreting electrocardiograms (EKGs).

Draws venous and arterial blood, inserts, maintains and uses invasive devices.

WORK EXPERIENCE – UNIVERSITY FACULTY

Position: Instructor I
Duration: June 2006 – September 2012
Institution: Bataan Peninsula State University
Address: Balanga City, Bataan, Philippines

JOB DESCRIPTION:

Demonstrates and teaches concepts in classroom and laboratory units and instructs students in principles and application of health-related subjects.

Lectures to students, conducts and supervises laboratory work, issues assignments, and directs seminars and panels.

Prepares and administers examinations, evaluates student's progress, and maintains records of student's performance.

Participates in planning curriculum, teaching schedule, and course outline.

Cooperates with colleagues and other members of the academic community in evaluating and improving teaching and practices.

Specializes in specific courses such as Anatomy, Medical-Surgical Nursing, Intensive Care Unit and Anesthesia Nursing and Nutrition.

Coordinates and cooperates with parents and members of the community with regards to the holistic development of the students.

Maintains professional and technical knowledge by attending educational workshops, reviewing professional publications, establishing personal networks, and participating in professional societies.

Establishes a compassionate environment by providing emotional, psychological, and spiritual support to students, communities and families.
