Bachelor of Science, Nursing Graduated magna cum laude May 2021

California State University, Bakersfield

Work Experience

Public Health Nurse

Kern County Public Health - Bakersfield, CA

February 2022 to Present

- Collaborated with physicians, public health aides, and medical investigators to case manage patients with various diagnoses, such as tuberculosis, congenital syphilis, and foodborne illnesses.
- Executed home visits to build rapport with patients as well as perform assessments of the patient and their home; utilized this information to better understand individual needs and connect patients to appropriate resources.
- Provided preventive care in the form of free health screenings to the community; checked patients' blood pressure, glucose, cholesterol, and BMI, and educated patients regarding results.

Emergency Department Nurse

Kern Medical - Bakersfield, CA

July 2021 to February 2022

- Assessed patient conditions prior to safely administering intravenous, intramuscular, and nebulized medications.
- Assisted in care of trauma patients; wrote trauma documentation as scribe; helped transfer and expose patient, initiate IV access, and carry out verbal physician orders as bedside nurse.
- Advocated for patients by communicating patient needs (new onset of symptoms, increased pain, or questions about procedures) to physicians and requesting appropriate interventions.

Pre-Licensed Nurse

Kern Medical - Bakersfield, CA

May 2021 to July 2021

- Aided nursing staff with orders within scope of practice, such as performing EKG tests, taking vitals, and changing bed linens.
- Ensured staff and patient safety by performing environmental safety checks and observing patients at risk for harm to self or others.

Junior Staff Nurse

Kern County Public Health - Bakersfield, CA

November 2020 to April 2021

- Tested 200 clients for COVID-19 each week using nasopharyngeal swab tests.
- Administered COVID-19 vaccines at mass vaccination clinics to 300 patients a day.

- Performed contact tracing for positive cases of COVID-19 and assessed patient eligibility to be released from isolation.
