Objective

To obtain a position where I can properly utilize acquired knowledge and experiences, while offering an opportunity for professional growth and advancement.

Experience

09/2021 - 04/2022

NYP Weill Cornell Hospital, NY, NY - Med Surg, RN

Collaborated with a multidisciplinary healthcare team to develop and adapt individualized plans of care to achieve patient care and recovery. This is achieved by providing quality nursing care in accordance with policies and procedures. Managing daily caseload, assessing patients' needs and communicating findings to the interdisciplinary team.

10/2019 - 10/2020

Emory Midtown Hospital, Atlanta, GA - Labor and Delivery, RN

Implemented hands-on comfort care to pregnant women. This includes but is not limited to coaching women through different stages of labor, monitoring fetal heartbeat, length, and strength of contractions, and administering medications for a safe delivery.

02/2017 - 09/2020

Piedmont Newton Hospital, Covington, GA - Med Surg, RN

Provided care to ill, injured and recovering patients. This is achieved but is not limited to assessing patients' condition, administering medication, monitoring vitals and changes in patients' condition, performing a multitude of skills in accordance with policies and procedures and providing support and education to patient and patient family.

Education

Brooklyn College, Brooklyn NY - Bachelor of Science in Biology 2010

Medgar Evers College, Brooklyn NY - Associate Degree of Nursing 2016

Awards

Daisy Nominee
