SKILLS

EXPERIENCE

Registered Nurse Team Leader

September 2017 - May 2020

Ballad Health System | Kingsport, TN

- RN SHIFT LEADER ICU
- Monitored performance of team members, reviewing care plans and discussing expectations.
- Achieved patient protection targets by verifying consistent adherence to quality insurance and infection control policies.
- Evaluated all unit patients with regular rounds, including final rounds near end of each shift to check conditions, paperwork, and care delivery prior to shift change.
- Determined needs and care plans with minimal oversight, using sound clinical knowledge and abilities to meet unique patient demands.
- Coordinated change of shift reporting via walking rounds, verifying each departing nurse delivered comprehensive information.
- Minimized risk of medical errors with timely and accurate chart updates in [System].
- Protected patients through careful monitoring and consistent use of aseptic techniques.
- Educated patients on preventive care and lifestyle choices to reduce symptoms of conditions such as diabetes and asthma.
- Managed direct care of [Type] patients, including conducting assessments, tracking progress, and documenting care activities.
- Supported patients' feeding needs through assistive feeding and effective management of gastric tubes.
- Helped treat patients' conditions and alleviate symptoms by administering oral, IV, and intramuscular medications.
- Assisted with monitoring and diagnostic procedures by collecting patient data and biological samples.
- Stabilized patients experiencing emergency complications and decompensations by administering advanced life support.
- Administered oxygen and managed patients' breathing issues with treatments, assistive devices, and ventilators.
- Worked closely with physicians, surgeons, and nursing staff to deliver top-notch care in [Type] unit.
- Cared for patients' wounds and promoted recovery by dressing, cleaning, and redressing areas.
- Trained and mentored student nurses, interns, and new graduates in proper procedures and care standards.

- Improved recovery by educating patients and caregivers on proper at-home care and treatment regimens.
