### Communication

With knowledge acquired in working from a neuro rehabilitation facility, homecare, orthopedic rehabilitation facility, and finally in a present position tending to uro-gyn/ med-surg patients, I believe I have learnt to appreciate and include in my practice the whole person approach to care and inter-disciplinary communication, patient safety, team work and many other essential parts of this profession. I believe I will be a wonderful addition to your team as well as looking forward to learning more from my fellow health care professionals.
