Registered Nurse, PACU/ Pre-Op/ Circulate/ Sedation/ L&D

Since June 2019, I have been working Per Diem with Medely's group of ASC in SF Bay area, I take assignments from San Francisco to Sacramento, and everywhere in between, (Modesto, Merced, Sacramento, Los Gatos, Concord, Walnut Creek, San Jose, South San Francisco, San Mateo, Pleasanton, Etc.) I have enjoyed the flexibility and the ability to hone into my OR skills, which these experiences have only helped to build on my 19+ years of High Risk OB/OR experience. I truly have enjoyed the opportunity to work in these settings. I appreciate the knowledge I have gained, the people I have met, the various types of surgeries I have been able to be part of, whether it be recovering a GI or Pain patient, providing sedation, monitoring, and circulating during a plastics case, or precepting new staff. I am a forever learner, will always seek out new and exciting opportunities, never underestimating Nursing career may take me next. Being a Nurse is one of the best choices I have in life. I look forward to meeting you, learning about your organization and two decades of living, learning, and breathing nursing, during this ever evolving time.
