Authorized to work in the US for any employer

## Work Experience

---

### **RN**

BrightStar Care - Boise, ID

2021 to Present

Registered Nurse position via contract through BrightStar Care. The position is that of a Vaccination/ Shot Nurse, in which administering various injectable medication and vaccinations in a controlled and consistent manner was a must. Other responsibilities included drawing up and reconstituting various medication/vaccinations, assessing for accuracy (I.e. safe administration checks), and working in a timely manner to get through busy time periods due to the pandemic. Contract set to end at the beginning of 2022.

### **LPN**

Foot Clinic - Boise, ID

February 2020 to May 2020

Responsible for assessing and providing care for the hands and feet of diabetics. Assessment of the limbs, skin, and nails was a critical part of being able to provide care for them/referring them for further evaluation.

### **Dispensing Nurse**

Aegis Treatment Centers - Bakersfield, CA

January 2019 to December 2019

Dispensing nurse duties included assessing patients for various signs of OD, administering highly potent medication in a safe manner, observing patients for adverse effects, seizure precautions and handling large amounts of opioid shipments and accounting for them safely.

### **Home Health Nurse**

Home Living Health - Bakersfield, CA

March 2019 to September 2019

Responsible for total patient care.

Patient had a tracheostomy and required full attention during a 12-14 hour shift. Responsibilities included suctioning patient as needed, changing out equipment per protocol and administering medication as prescribed by the healthcare provider.

### **LPN**

Evergreen long term care facility - Bakersfield, CA

January 2019 to May 2019

Was responsible for 40+ patients during NOC shifts. Time management and efficiency was a key aspect of being able to fulfill job requirements.

Responsibilities: Wound care, administering shots/injections, G-tube feedings, assessing IVs for RNs, administering medications on time and coordinating care with a multi-disciplinary team.
