Detail-oriented, astute nursing professional with profound healthcare expertise in patient supervision, diagnosis, and management and demonstrates the capability to work in coordination with the healthcare team. An exceptionally resourceful, flexible, and enthusiastic team player with a proven ability to assist in surgical procedures, collect and test specimens, administer medications, monitor patients, and maintain records of patients' reports, quick learner with a knack for working under pressure and an excellent communicator and empathy who can forge strong relationships with patients and their families by utilizing my interpersonal skills.

Currently looking for a job opportunity at an esteemed healthcare facility which offers a stimulating environment to my skills as a registered nurse.
