PROFESSIONAL EXPERIENCE:**Touro Hospital-RN**

New Orleans, LA

June 2019

- Performs the priority technical procedures required by the area/department/assignment safely, effectively, efficiently, and legally.
- Establishes and/or revises priorities for patient care activities based on the following: acuity of the need, resource availability, customer/patient preference/request, and other departmental needs. Problem recognition and management in indicating actual risk to the individual's health, initiates action to correct, reduce or prevent the risk. Gives a rationale for actions or decisions based on one or more of the following: scientific principles/logic, successful experience,intuition, and/or standards of

practice/protocols. Develops a plan of care for assigned patients and/or revises bases on effectiveness, efficiency, and/or patient feedback.

- Seeks supervision, consultation, assistance when unable to perform effectively or safely independently. Uses interpersonal-communication strategies with individuals that are intended to achieve: desirable/acceptable outcomes/responses and perception of satisfaction by those involved. Uses internal and/or external resources to resolve and/or prevent problems that cannot be managed independently.
- Initiates and/or maintains job specific interventions to assure continuity of safe, effective, care for patients including medication management and patient education. Complies with established hospital/departmental and personnel policies. Documents, consistent with established guidelines.
- Delegates safely and appropriately to other team members to accomplish direct patient care or support activities. Decision based upon: acuity/complexity of activity; competency of recipient; ability to supervise; scope of practice.
