## Work Experience

---

### **Registered Nurse (RN)**

MedikoPC - Anderson, SC

May 2022 to Present

I recently received my RN license and I have five and half years experience as a LPN. I do screenings, history and physicals, detox, wound care, medication administration, BLS/CPR certified, check blood sugars as well as administer insulin. Write provider orders and communicate with many outside sources to provide adequate care. In my clinical setting I am able to manage a population of 400 at times being the only nurse on premises. My skill set has to be on point as well as my mental mind set to be able to make quick and appropriate decision. I have great communication skills and incisive assessment skills.
