## WORK HISTORY

### TRAVEL ICU NURSE, PRECEPTOR | NEURO AND GENERAL INTENSIVE CARE UNIT

**Methodist Hospital Stone Oak: San Antonio, TX, (trauma level III)** *05•2021 – Present*

**Baylor Scott & White Medical Center Centennial: Frisco, TX, (trauma level III)**  
*10•2020 – 05•2021*

- Specializing in providing direct bedside care of patients suffering from acute stroke, intracranial hemorrhage, sub-acute stroke, subarachnoid hemorrhages, brain tumors, and various other neurological surgeries with invasive intracranial pressure management devices.
- Participated in Rapid Response Teams to provide intensive treatments and critical thinking to decompensating patients throughout the hospital.
- Served as a nursing preceptor/mentor to orient new staff members.
- Assists physicians with bedside procedures such as intubation, central line insertion, lumbar puncture, conscious sedation, cardio version and brain death protocols.

### STAFF ICU NURSE, PRECEPTOR | GENERAL INTENSIVE CARE UNIT

**Methodist Medical Center: Dallas, TX, (trauma level I)** *10•2019 – 10•2020*

- Assisted in accurately performing a variety of delegated roles such as obtaining vital signs, EKG's blood glucose levels, venipuncture, urine specimens, wound irrigation, and laceration repair.
- Worked extensively with ventilated patients in a large COVID ICU while performing various specialized interventions, such as CRRT and RotoProne.
- Assists physicians with bedside procedures such as intubation, central line insertion, lumbar puncture, thoracentesis, conscious sedation, bronchoscopy, and cardioversion.

### STAFF ICU NURSE | CARDIOTHORACIC TRANSPLANT INTENSIVE CARE UNIT

**Baylor University Medical Center: Dallas, TX, (trauma level I)** *01•2019 – 10•2019*

- Care for a large volume of patients including but not limited to emergent/elective cardiac and vascular surgery, cardiogenic shock, CHF, acute respiratory failure, septic shock, intra-aortic balloon pumps, LVADs and cardiac arrest.
- Shadowing with ECMO specialist and experienced nurses caring for immediate post-op heart transplant patients.
- Managed patients with needs such as mechanical ventilation maintenance, heavy vasopressor and vasodilator support, analgo-sedation, arterial lines, PA catheters, CVP & PAP monitoring, CRRT, and Targeted Temperature Management (hypothermia)
- Serves as an active member of the wound care, sepsis and infection control committees by ensuring staff compliance to protocols to enhance patient outcomes.
