## Summary

---

Exceedingly experienced RN and EMT trained to the highest standards to perform independently in many high acuity and fast paced nursing modalities. Extremely determined, goal-oriented team player eager to assist in the success of area assigned. Strong passion for education, patient care and emergency based medicine.

## Skills

---

- Outstanding ability to work in a fast paced, high acuity team environment.
- Strong leadership skills with the ability to merge well with a team and follow direction.
- Strong clinical and technical experience in ER, ICU, Cath Lab, IR, PACU and EP lab.
- Flight EMT extensively trained on multiple fixed wing aircraft and able to perform to my RN scope of practice as necessary for patient care.
- Trained and experienced to perform in fast-paced, high acuity Emergency Department.
- Trained and experienced to perform in high-acuity ICU
- Trained and experienced to perform in fast-paced, complex PACU setting.
- Trained and experienced perioperatively in Cardiac Catheterization lab on patient assessment/care, moderate sedation, circulating in right/left diagnostic catheterizations, coronary angioplasty, arthrorectomy, thrombectomy, Impella, IABP, high-risk PCIs, STEMIs, TAVR, temporary pacemakers, EKOS, pulmonary embolisms, watchman devices, PFO closures, carotid andgiogram/intervention, treadmill, nuclear and pharmacological stress tests. TEE/cardioversion, management/removal of sheaths and TR bands.
- Trained and experienced in interventional radiology on patient assessment/care, moderate sedation, para/thoracentesis, temporary and tunneled dialysis catheters, IVC filter. port, suprapubic catheters, kyphoplasty, peripheral angiogram/intervention.
- Trained and experienced in Electrophysiology lab on patient assessment/care, moderate sedation, pacemaker placement, lead revisions. EP studies, RF and cryoablations.
- Moderately trained and experienced in Pediatric ER, PICU and NICU.

## Experience

---

United States Air Force Reserve  
**Aerospace Medical Technician**  
10/2009 - Current

Duties performed one weekend per month, two weeks of the year. Deployment completed October 2021-April 2022. Flight EMT trained to the highest military standards to provide medical support and care to patients from point of injury to the next level of care on fixed wing aircraft. Duties include set up of medical flight equipment and patient care areas, loading patients on to aircraft, performing triage and emergent medical care upon arrival, performing baseline assessment, monitoring physiological changes, providing necessary patient care and administering medications, managing patient and aircraft emergencies, transferring care to receiving facilities. Supervisor of Mission Clinical Coordinator program which creates, executes and evaluates training plans. This involves creating training patients, running and evaluating medical and aircraft emergency training scenarios for flight

RNs and EMTs.

Roper St. Francis Hospital | Charleston, SC  
**PACU Registered Nurse**  
08/2020 - 12/2021

Per Diem RN for 18 bed PACU covering orthopedic, gynecology, plastic surgery for inpatient and outpatient surgeries. Also performed preoperative role as needed and pre/post recovery when assisting pain clinic procedures.

Health First Medical Center | Melbourne, FL  
**Critical Care Float Pool Registered Nurse**  
08/2018 - 09/2021

Critical Care RN assigned to cover nursing shortages throughout four hospitals in the Health First system. Areas of coverage included emergency department, ICU, telemetry and medical/surgical floors, pre-op, PACU, interventional radiology and cardiac catheterization lab. Independently delivered a complete range of RN services and expertise to each area assigned.

Krucial Staffing | Fredricksburg, TX  
**COVID ICU Travel RN**  
01/2021 - 03/2021

Worked as an independent ICU RN to cover critical RN shortages during COVID crisis. Performed nursing care in 10 bed ICU for COVID and all non-covid ICU level patients.

Florida | Cocoa Beach, FL  
**Travel Registered Nurse**  
03/2016 - 07/2018

Multiple assignments covering Cath lab and Emergency Department:

- 10/17-07/18 Health First- Cath Lab travel assignment between 4 facilities. Independent RN on team covering STEMI call, interventional and diagnostic caths, peripheral angiograms/interventions, TEE/Cardioversion, Pacemaker Insertion/EP procedures.
- 05/17-08/17, 03/16-06/16 Aventura Hospital- 2 Cath lab travel assignments completed. Independent RN on team covering 2 cardiac labs, 1 TAVR, 1EP and 1-2 IR labs with a 14 bed pre/post area.
- 01/17-04/17 University of Miami Hospital- Emergency Department RN in high acuity/fast-paced environment of a 20 bed ER covering broad range of patient modality.
- 07/16-11/16 Baptist Hospital- Independent RN on team covering 3 cardiac labs, 1 TAVR, 1 EP, 2 IR labs.

Detroit Medical Center | Detroit, MI  
**Registered Nurse**  
01/2010 - 01/2016

- I was a critical care nurse fully trained and assigned to cover all areas of expertise in a variety of hospitals and settings to include adult ED, ICU, cath lab, EP lab, NICU, PICU and pediatric ED.
- 2013-2015 Trained in pre/post cath lab, chosen by management join Cardio One Team of Michigan and was trained to perform preoperatively in cath lab. Lab consisted of 5 fast paced, high acuity cath labs and 2 EP labs.
- 2011-2013 Trained and performed independently in DMC Children's Hospital of Michigan in Peds ED, PICU, NICU and floors. Was trained in PICU and NICU to care for lesser acuity patients in the department.
- 2010-2011 Trained and performed as an independent RN to cover hospital system in critical care 12 settings to include ED and ICU. Continued to pick up extra shifts and fill in as needed in these departments during my time in pediatrics and cath lab.

Oakwood Hospital and Medical Center | Dearborn, MI  
**Staff Nurse, Emergency Medical Technician**  
01/2004 - 01/2010

- After graduation from nursing school selected to join staff as a graduate RN
- At this trauma center skill and insight was gained in the care of acute patients ranging in age from the newborn to the geriatrics receiving care for traumatic injuries, advanced disease states, acute illness, and psychological issues.
