Work Experience

Student Nurse Extern Trauma ICU

Regional One Hospital - Memphis, TN

December 2020 to March 2022

- Applied critical thinking to patients to determine the effects of the disease and expected outcomes related to injury and how to alter care based on these findings.
- Treated patients with a broad range of diagnoses: sepsis, motor vehicle accident, falls, gunshot wounds, and various other trauma diagnoses
- Collaborated with preceptor to determine interventions based on patient's status change
- Coached in the setup and role of Swan Ganz, ART lines, CRRT, EVD, Bronchoscopy, Chest Tubes, Ventilator management, FloTrack
- Assisted doctors with bedside invasive and non-invasive procedures

Student Nurse Extern Med Surg/Neuro Floor

St. Francis Hospital - Memphis, TN

May 2020 to July 2021

- Performed neuro checks on patients who were admitted with strokes behind preceptor
- Performed total patient care on 5-7 patients per shift prioritizing patients based on acuity
- Educated patient and family members regarding admitting diagnosis and the plan to discharge

Registered Nurse CERTIFICATION: Basic Life Support

Completed Critical Care Boot Camp

April 2021 to April 2021

June 2021

Staff Nurse/Charge Nurse/Preceptor, Trauma ICU

Work Experience: Regional One Hospital - Memphis, TN

- Oversee daily function of the unit, directing admissions, transfers, and patient flow
- Assign nurses and support staff to patient care
- Train new staff in performing high-quality care of critically ill patients
- Developed treatment plans and walked through pathophysiology of the disease process
- Proficient in emergency resuscitation, running codes, and delivering emergency medications
- Performing diagnostic test such as X-rays, CT scans, and MRIs
- Work directly with physicians to give medical updates
- Assisted with bedside procedures (Bronchoscopy, Bolt placement, External ventricular drains, CRRT, Swanz-ganz monitoring, hemodynamic drips)

Student Nurse Neuro ICU

EXPERIENCE: Jackson General Hospital - Jackson, TN

- Closely monitored acute conditions: O2 saturates, neuro checks, arterial line management, ventricle pressure monitoring, titrated infusions
- Performed frequent in-depth neurological assessments on assigned patients
- Pharmacological and non-pharmacological management
- Treated COVID patients
- Provided bedside care of patients suffering intracranial hemorrhage, subarachnoid hemorrhage, brain tumors, and various neurological surgeries/diseases.
