Work Experience

Adult and Pediatric vaccination nurse

CVS via Lancesoft - Atlanta, GA

September 2021 to Present

Administering walk-ins and scheduled Covid, flu, shingles, Tdap, and various other vaccines to a high volume of adults and children ages 5 and up in a outpatient clinic setting with CVS. Maintaining confidentiality and updating patient records, communicating and working alongside with pharmacists, district manager and other ancillary staff to achieve goals.

RN Cath lab

WellStar Health System Inc

2020 to February 2020

RN cath lab services

Cath Lab RN

First Coast Heart & Vascular Center - Jacksonville, FL

October 2019 to 2020

Circulated cardiac and peripheral cases within a stand alone Cath lab. I've used the following equipment: Polar cath, Jet stream, rotoblator, Doppler, power injector and Ivus/Volcano just to name a few.

I'm familiar with cardiac meds, conscious sedation and emergency drugs.

I'm also experienced with patient holding and recovery for pre and post care all the way to discharging patients home.

Cath lab RN

Emory University Hospital

November 2018 to 2019

Assisted physician in diagnosing and treating cardiac and peripheral cases, IVC filter insertion, Right and left heart caths, STEMI call team, IABP insertions, PCI's, PTCA's, Pericardiocentesis, peripheral cases, CTO's, functional studies as well as some TAVR experience.

Transferred critical care patients to and from cath while maintaining lots of various medical devices and lines.

Can circulate and monitor using Mac Lab and Epic. Some scrub experience also.

Registered Nurse

DaVita Dialysis Clinic

November 2017 to October 2018

Performed various tasks relating to providing dialysis to end stage renal failure patients via fistulas, grafts and Central lines, administering various meds throughout treatments while educating and helping the patients to manage other co-morbidities.
