Work Experience

Registered Nurse, Emergency Department

Trillium Health Partners - Ontario

June 2021 to Present

- Assisted in the care of trauma patients, cardiac arrests, code strokes, conscious sedations, and mental health emergencies.
- Served as subacute lead to manage over 70 patients, managing prioritization of patients while acting as a liaison between nursing staff and physicians.
- Provided comprehensive care to patients across the lifespan including newborns and children, pregnant women, and the elderly.
- Maintained timely and optimal care to patients of various acuity levels in a demanding environment.
- Communicated effectively with all team members and intervened to advocate for best patient care.
- Provided thorough health teaching to patients and families regarding further steps of care to promote independence when patient returns to their community.
- Responsible for the direction of code white scenarios in the emergency department as well as assisted in code white calls throughout the hospital
