## WORK HISTORY

### DaVita Dialysis- In Center Hemodialysis Nurse

**January 1, 2022- Present**

As a dialysis nurse I coordinate patient dialysis treatments and home care with intraprofessional team members. My job requires I effectively communicate and work with multiple nephrologists, nurses, dietician, social worker, technicians, and facility administrators to provide care to patients with both acute and chronic renal failure. My nursing role assesses patients prior to, during, and after dialysis; accesses CVCs/AVFs/AVGs to initiate dialysis treatments; administers both scheduled and PRN medications as appropriate; reviews home medications, diets, and psychosocial aspects of the patient's life; and coordinate with local interventional radiology, PCPs, and hospitals to provide effective and holistic renal failure treatment to a specialized patient population

### Sani Eye Surgery Center- Pre/Post/Intraoperative Nurse

**February 1, 2021- Present**

As a preoperative nurse I prepare patients for surgery, complete pre-operative questioning, achieve intravenous access, administer preoperative medications, and monitor patient baseline status. As an

intraoperative/circulating nurse I position and prep the patient for surgery, document pertinent events, medications, and implements used throughout surgery, and provide support to the scrub techs and surgeon. As a postoperative nurse I receive the patient from surgery, monitor patient status, administer post-operative medications, and provide discharge instructions to patients. Skills required include familiarity with EMR systems, basic Spanish-speaking skills, patient assessments, and multi-tasking to balance and deliver care to a rotating three-bed pre/postoperative unit.

- BrightStar Care- Field Nurse- Infusion Nurse- Clinical Research Nurse** **January 11, 2021- Present**  
As a field nurse I provide care to patients in their private residence. I perform in-home patient assessments of health status and care needs to determine appropriate care needs and provide patient education. Additionally, I performed community COVID testing at various sites. As a clinical trial research nurse, I provide nursing skills to patients participating in clinical trials for various medications and health conditions. I perform patient assessments, administer patient testing, achieve intravenous access, collect specimens from patients at their homes, centrifuge specimens, and process specimens for shipping to appropriate laboratories. As an infusion nurse I coordinate shipment of appropriate supplies to patients' homes, perform dressing changes, administer various infusions to patients at their personal residence according to treatment plans while continuously monitoring the patient's status, and provide patient education for self-administration of infusions.
- Twin Cities Community Hospital – Definitive Observation Unit (DOU) - Staff Nurse** **June 2017 – Feb 2020**  
The DOU is a step-down unit in the critical care department providing care to patients in critical condition. This unit also provides care for patients with substance abuse withdrawal, forensic patients from the local men's prison and psychiatric state hospital and patients of suicidal and homicidal ideation. My duties required providing efficient, knowledgeable, safe, and therapeutic bedside patient care for critical patients, administering medications, coordinating patient care, and collaborating with inter-professional healthcare teams while providing supportive assistance to co-workers. Position also floated to Post-Partum Mother-Baby Unit and the Medical Surgical Unit to provide patient care.
- Twin Cities Community Hospital – Medical Surgical Unit (MSU) – Staff Nurse** **June 2016 – June 2017**  
The MSU has four wings: One Medical Guarded Unit (MGU) for forensic patients, one post-operative orthopedic wing, and two general patient population wings. Forensic patients from the local California Men's Colony Prison and the psychiatric state hospital were provided care in the MGU. My position also required providing care to patients in all four wings of this unit. Duties involved providing competent, safe, efficient, and therapeutic bedside patient care for while refining my nursing practice, time management and psychomotor skills.
- Twin Cities Community Hospital – Medical Surgical Unit/Intensive Care Unit Preceptorship** **April 2016 – May 2016**  
Completed 150 hours of preceptorship with precepting staff nurse to provide competent, safe, efficient, and therapeutic bedside patient care while refining my nursing practice, time management and psychomotor skills.
- Twin Cities Community Hospital – Medical Surgical Unit Student Paid-Internee** **July 1, 2015 - Dec 2015**  
Completed 225 internship hours on the Medical Surgical Unit. Provide safe, educated, efficient and friendly patient care while learning the nurse role, skills, and time management.
- Twin Cities Community Hospital – Emergency Room Student Internee** **Summer 2009**  
Completed over 50 internship hours assisting staff nurses with patient care and triage while observing and participating in patient discussion.
