July 13, 2022

I am interested in the new graduate program offered at your health center. I am a new graduate of the bachelor's program of nursing offered at West Coast University, currently certified in BLS, CPR, and Fire Safety. My main aspiration in life is to help those in need as best possible and as much as my abilities and scope of practice allows me to. I strive to abide by the facilities mission which is to turn great experiences in to great accomplishments and to deliver leading-edge patient care, research, and education.

I have graduated with a bachelors in registered nursing from West Coast University also graduating on the honor roll due to obtaining a 4.0 GPA throughout nursing school. I am a professional, caring, empathetic, responsible and a meticulous worker who strives to deliver the best quality care my scope of practice allows me to. I have also successfully passed the NCLEX license board examination.

I have been interested in the medical field from a young age having a sick grandfather I grew up in and out of hospitals fascinated by the work I saw the medical staff provide and saw how their helping hands made my family member recover swiftly and smoothly. I have also volunteered at my local hospitals for years until the pandemic of COVID-19 struck us all. Due to this I aspire to be a nurse and help those in need and have my chance to lend a helping hand now.

To conclude I believe I would be a wonderful asset and beneficial worker to your establishment at your health center. I would love to set up an interview so you get to know me more and we can work together and find the right position for me in your facility. My contact information is lyushtra11@gmail.com 13109483234. Thank you so much for your time and consideration.

Respectfully,

Ilona Lyushtra BSN, RN
