Seeking a position as a Registered Nurse in a health care facility where top notch educational and training achievements can be put to use in addition to interpersonal skills, to provide quality healthcare to patients.

Work Experience

Registered Nurse

Piedmont Physicians Group - Stockbridge, GA
June 2022 to Present

Triage incoming telephone calls; responds to questions regarding medications and treatment instructions; coordinates telephone request to refill prescription drug medications in accordance with physician's directions and protocols.

Administers prescribed medications and treatments in accordance with clinical nursing standards; observes, records, and reports patient's condition; advises physician of patient's adverse reactions to drugs and/or treatments.

Provides patient education and teaching under the direction of a physician; answers questions regarding diagnostic testing and treatment.

Dresses wounds according to standard clinical procedures. Administers and monitors IV fluids and medications as necessary. Performs MA duties as indicated

Registered Nurse/Charge Nurse

Emoryhealthcare - Decatur, GA
September 2021 to Present

- Triage patients
- Provided direct care of up to 32 patients per shift
- Monitored and documented patient's vitals
- Provided education and discharge instructions

Registered Nurse/Charge RN

Emory Healthcare - Decatur, GA
September 2021 to Present

Emory Primary Care and Geriatrics, Decatur, Georgia

RN charge nurse, September 2021 - present

Routinely uses acquired knowledge, theory, research, and experience to respond to changes in clinical situations. Is able to apply the Synergy Model for Care in practice, and use this knowledge to personalize care for each patient/family. Serves as a resource to colleagues (such as lesser experienced nurses) and strong advocate for patients/families. Develops, revises policies and procedures that pertain to specialized patient populations and/or unit and hospital practices. Functions as the charge nurse as

assigned. Makes patient care assignments. Manages conflict and explores problem solving alternatives. Maintains courteous and professional behavior at all times. Assesses assigned patients; reviews medical history, admitting diagnosis, physician's orders, nursing history, and evaluation of diagnostic data. Interviews patient and family to determine patient needs; communicates these to interdisciplinary health care team members as appropriate. Determines appropriate nursing interventions for identified problems, symptoms, behavioral changes. Identifies appropriate standards of care and/or collaborative clinical pathways to guide the plan of care; revises as appropriate. Administers direct nursing care to assigned patients based on priorities and timeframes. Evaluates patients' responses to delivery of nursing care and patient education for self care. Keeps patient and family up to date on progress. Develops, conducts and evaluates patient and family education in discussing plan of care. Teaches family and patient to perform specific procedures; documents activities.

OR Circulating Nurse

Indeed Assessments provides skills tests that are not indicative of a license or certification, or continued development in any professional field.

Additional Information

1. This is a full-time position. Are you willing and able to work full-time hours?
2. What times and days could you do an in-person interview?
3. This is not shift work, but is seeing 3-7 pt./day in their homes or senior living facilities. You will be driving from patient home to patient home & most patients will be close together but sometimes you may have to drive 20-40 minutes to reach a patient's home, therefore; about half your day will be spent driving. Traveling is part of your salary plus you will get additional pay for mileage, but I want to make sure that you are fine with traveling as that is an integral part of home health?
4. Home Health is paid for by Medicare, and Medicare requires nurses to fill out a document called OASIS when starting any patient on services. The OASIS document is computerized, but in paper form is equal to a 38-page questionnaire, and then a lesser number of pages to update it for recertification and discharge. So, there is a lot of paperwork in home health-- are you going to be fine with that?
5. This company requires a COVID-19 vaccine. You may apply for the exemption. Is that okay?
6. Please tell me about what recent hands-on experience you have doing skilled nursing treatments with subacute medical/surgical patients including complex wound care, medication management, wound vacs, patient education, and/or blood draws. Which of these skills have you done recently, where did you work doing these, and what approximate month/year to what month/year did you have this hands-on experience?
7. What is your email address?
