Duties on the inpatient psychiatric unit include but are not limited to admission, initiating treatment plans, medication administration, supervising, along with other services implemented on an inpatient psychiatric unit to facilitate stabilization of clients.

Weekend- Nursing Supervisor 05/2011-05/2012
Kindred Transitional Care and Rehabilitation – Primacy
Memphis, TN

Worked part-time as a weekend nurse supervisor at a 125 bed transitional care and rehabilitation facility. Duties include supervising and coordinating the efforts of nursing staff and providing total nursing care for residents. Managing areas of responsibility with the goal of achieving and maintaining the highest quality of care possible. Such as contacting physicians as necessary, participating in counseling, scheduling and directing the nursing staff. Recommending plans for staff training, ensuring timely documentation of resident care activities.

Part-time Weekend Nights- Charge RN 08/2010- 08/2011
HealthSouth Rehabilitation Center
Memphis, TN

As a rehabilitation nurses at HealthSouth I cared for individuals affected by chronic illness or and /or physical disability and helped them to adapt to their disabilities to achieve their greatest potential and work toward productive, independent lives by working with other licensed health care personnel such as; physical therapist, occupational therapist, speech therapist and case management. A typical night shift included assessment, medication administration, acting as charge nurse and overseeing other staff members. We often worked with individuals and their families soon after the onset of a disabling injury or chronic illness. Providing support in the form of patient and family education and empowering these individuals when they go home or return to work or school. We often taught patients and their caregivers how to access systems and resources. Along with managing complex medical issues, collaborating with other specialists, providing ongoing patient/caregiver education, setting goals for maximal independence and establishing plans of care to maintain optimal wellness

Detox-Dual Diagnosis /Charge Nurse 01/ 2011-04/2012
Parkwood Behavioral Health Hospital
Olive Branch, MS

Worked as a charge nurse on a 21-bed dual diagnosis unit at a behavior health facility where inpatient, outpatient and residential mental health services were rendered. The particular units I worked on, had a ratio of 1 nurse to 21 patients assisted by 1 mental health tech. Duties include nursing care of patients requiring substantial specialized judgment and skills of patients with psychiatric and substance abuse disorders. As the Registered Nurse on the unit, I prescribed, coordinated and delegated nursing care utilizing the nursing process that is integrated into the multidisciplinary treatment team plan of care. Also, accountable and responsible for assigned nursing care activities on the unit. Implementing a thorough health assessment to identify and manage patients with possible withdrawal symptoms to prevent complications along with initiating and following withdrawal protocols and procedures and with implementing an individualized Treatment plan.
