PROFESSIONAL EXPERIENCE:

12/03/2021- present: DaVita Dialysis, Indio California

RN dialysis treatments required by patients suffering from acute or chronic kidney failure.

Checking on the patients and record patients' vitals, ensure that dialysis machines are set up correctly, and teach patients how to operate home dialysis machines. Also assessing patients for impending complications; ensuring that the dialysis area is clean before beginning procedures. Monitoring each patient's vitals and response to treatment and evaluating the effectiveness of dialysis equipment.

3/20/20 – 12/2021 Valleywise Hospital, Phoenix Arizona

RN in Emergency Room setting. Record symptoms, patient history and coordinate with health care team to assess, plan, implement and evaluate patient care. Perform triage, manage basic life support needs and stabilize patient until attending physician is available. Monitor equipment for adverse symptoms and record patient current vital signs. Work directly under physician assisting exams, diagnostic testing and treatments. Prepare and administer (orally, subcutaneously, through an IV) and record prescribed medications. Cleans and bandages wounds. Provide basic bedside care and patient education plan. Educate patient and others on how to manage illness/injury, post-treatment care needs, diet/nutrition/exercise programs, self-administration of medication and rehabilitation, as well as provide referrals for healthcare follow-up. Display standard nursing professionalism during patient and significant other interaction. Provide care for patient's illness or trauma requiring emergency attention and recognize and effectively treat life-threatening conditions.

6/2018 – 2/2020: Abrazo West Campus, Goodyear Arizona

RN in a multiple sub-specialty ICU in a Level I Trauma Center, Certified Stroke Center, Certified Chest Pain Center designations. Responded to Traumas in ED and continued care in ICU. Proficient with immediate post-operative open-heart patients, neuro patients including ICP monitoring, Swan-Ganz monitoring, arterial lines, CRRT, Impella, IABP, complex care. Educated patients and families, participated in multi-disciplinary rounds daily. Designated Skin Care Champion, intermittent Charge duties, assisted with staff education and morale.
